draw from them, I have already given the reaſons of my diſſent, which this Gentleman is not pleaſed to underſtand. But to end all controverſies he may pleaſe to conſult Mr. *Perrault*, *de la Hire*, or any other at *Paris* well known to be skilled in Hydraulicks: and I doubt not but he will find them of the ſame opinion with Mr. *Boyle*, Mr. *Hook* and other knowing perſons here, who all agree that our Author is in this matter under a miſtake.
